Decentralized Finances.

THE COVID-19 AND ACCELERATED DIGITAL TRANSFORMATION.

The COVID-19 accelerated the digitization process, with which DeFi was born and that model has begun to wear out today. We harness that technology and apply it to the world of traditional business.

Responsive Webapp.

MINIMAL & FRIENDLY FOR ANY USER.

With a minimalist but above all very intuitive format, we generate a platform where the user can register and generate business links instantly.

UNLIMITED SERVICES. DEFI, METAVERSE, NETWORKING.

Those individuals with an established company, will be able to request the tokenization of their company and be listed in our DEX (decentralized exchange).

Global reach, without
limits or borders.

SMALL AND MEDIUM-SIZED ENTERPRISES

Small companies suffered during confinement from a lack of liquidity, reduced sales and even the closing of their doors.

The screenshot shows a dark-themed social media application. At the top, there is a search bar with the placeholder "Search for people, companies, nets and #hashtags". Below the search bar is a navigation bar with icons for notifications, messages, and profile.

The main area features a user profile for "Luis Rodriguez" (@laro_ok). The profile includes a purple background image, a profile picture, and the name "Luis Rodriguez" with a blue verified checkmark. Below the name are statistics: Posts (5), Following (26), and Followers (21).

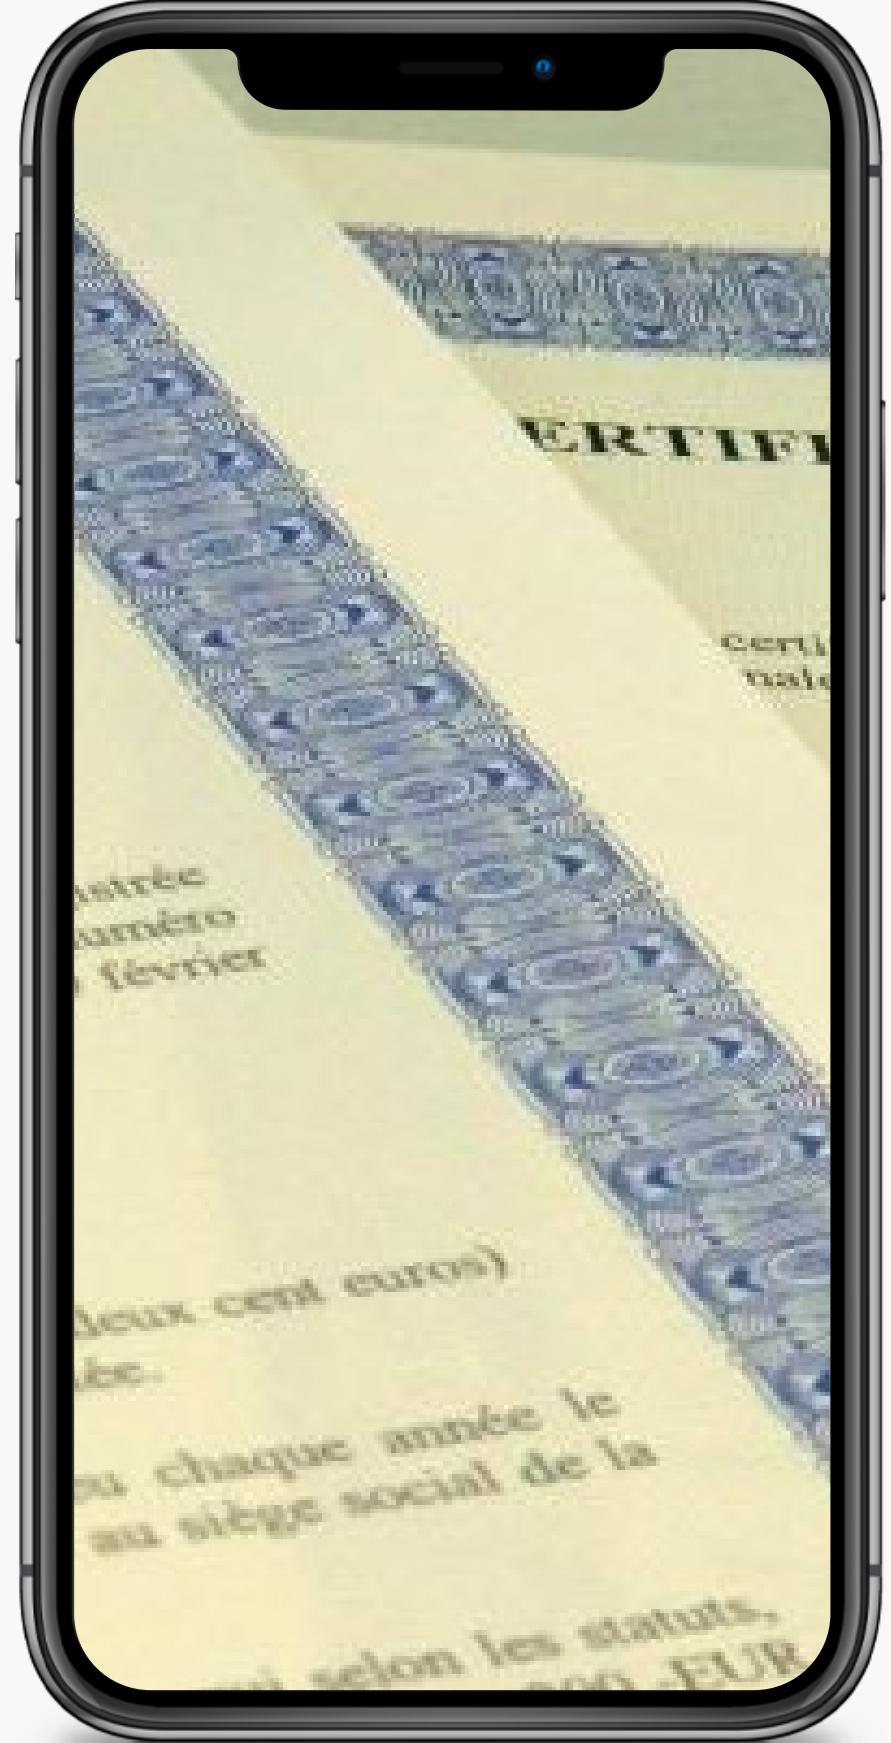

On the left, there is a post from Luis Rodriguez with the text "Good evening, Luis Rodriguez" and "Evenings are life's way of saying that you are closer to your dreams." Below this is another post by Luis Rodriguez with the text "Hola a todos! estamos modelando nuestro metaverso jolders city! ¿Les parece bien que integremos la compra-venta de espacios publicitarios y oficinas propias de trabajo en el entorno virtual?". This post has 17 likes and 0 comments.

On the right, there is a "Trending" section with hashtags: #pyme (5 posts), #argentina (4 posts), #fashion (1 post), #indumentaria (1 post), and #bienes (1 post). Below this is a "Pro Members" section featuring profiles of Marcela Gutierrez, Luis Rodriguez, Jose Luis Gonzalez, and Ezequiel.

At the bottom, there is a "People you may know" section and a "Search for users" input field.

TECHNOLOGY

Thanks to blockchain we generate an exchange of validated companies so that they can put their assets on offer in the virtual world and generate liquidity immediately.

NFT BEARER SHARES.

Based on this technology, we also issue securities of these companies, using non-fungible tokens, better known as NFTs. Thanks to this, we connect microinverters with companies that need them.

APPLY FOR JOBS.

Access multiple offers online in real time
and in one click.

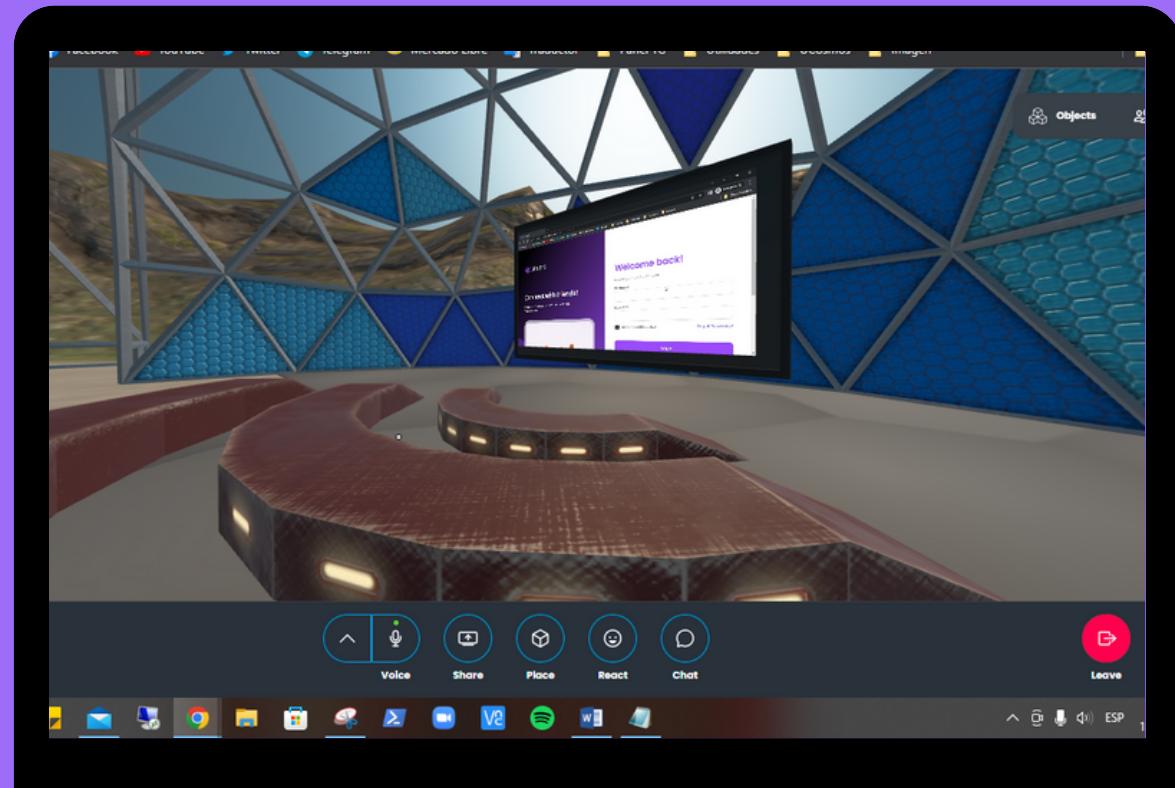

JOIN BUSINESS CHALLENGES.

CHALLENGES, HACKATONS, AND MORE.

You will have the opportunity to show your talent by solving real problems of companies that need it and thus access the benefits that they offer you.

OUR DEVELOPMENT:

Social network that integrates all the necessary business and networking functions to expand your network of contacts.

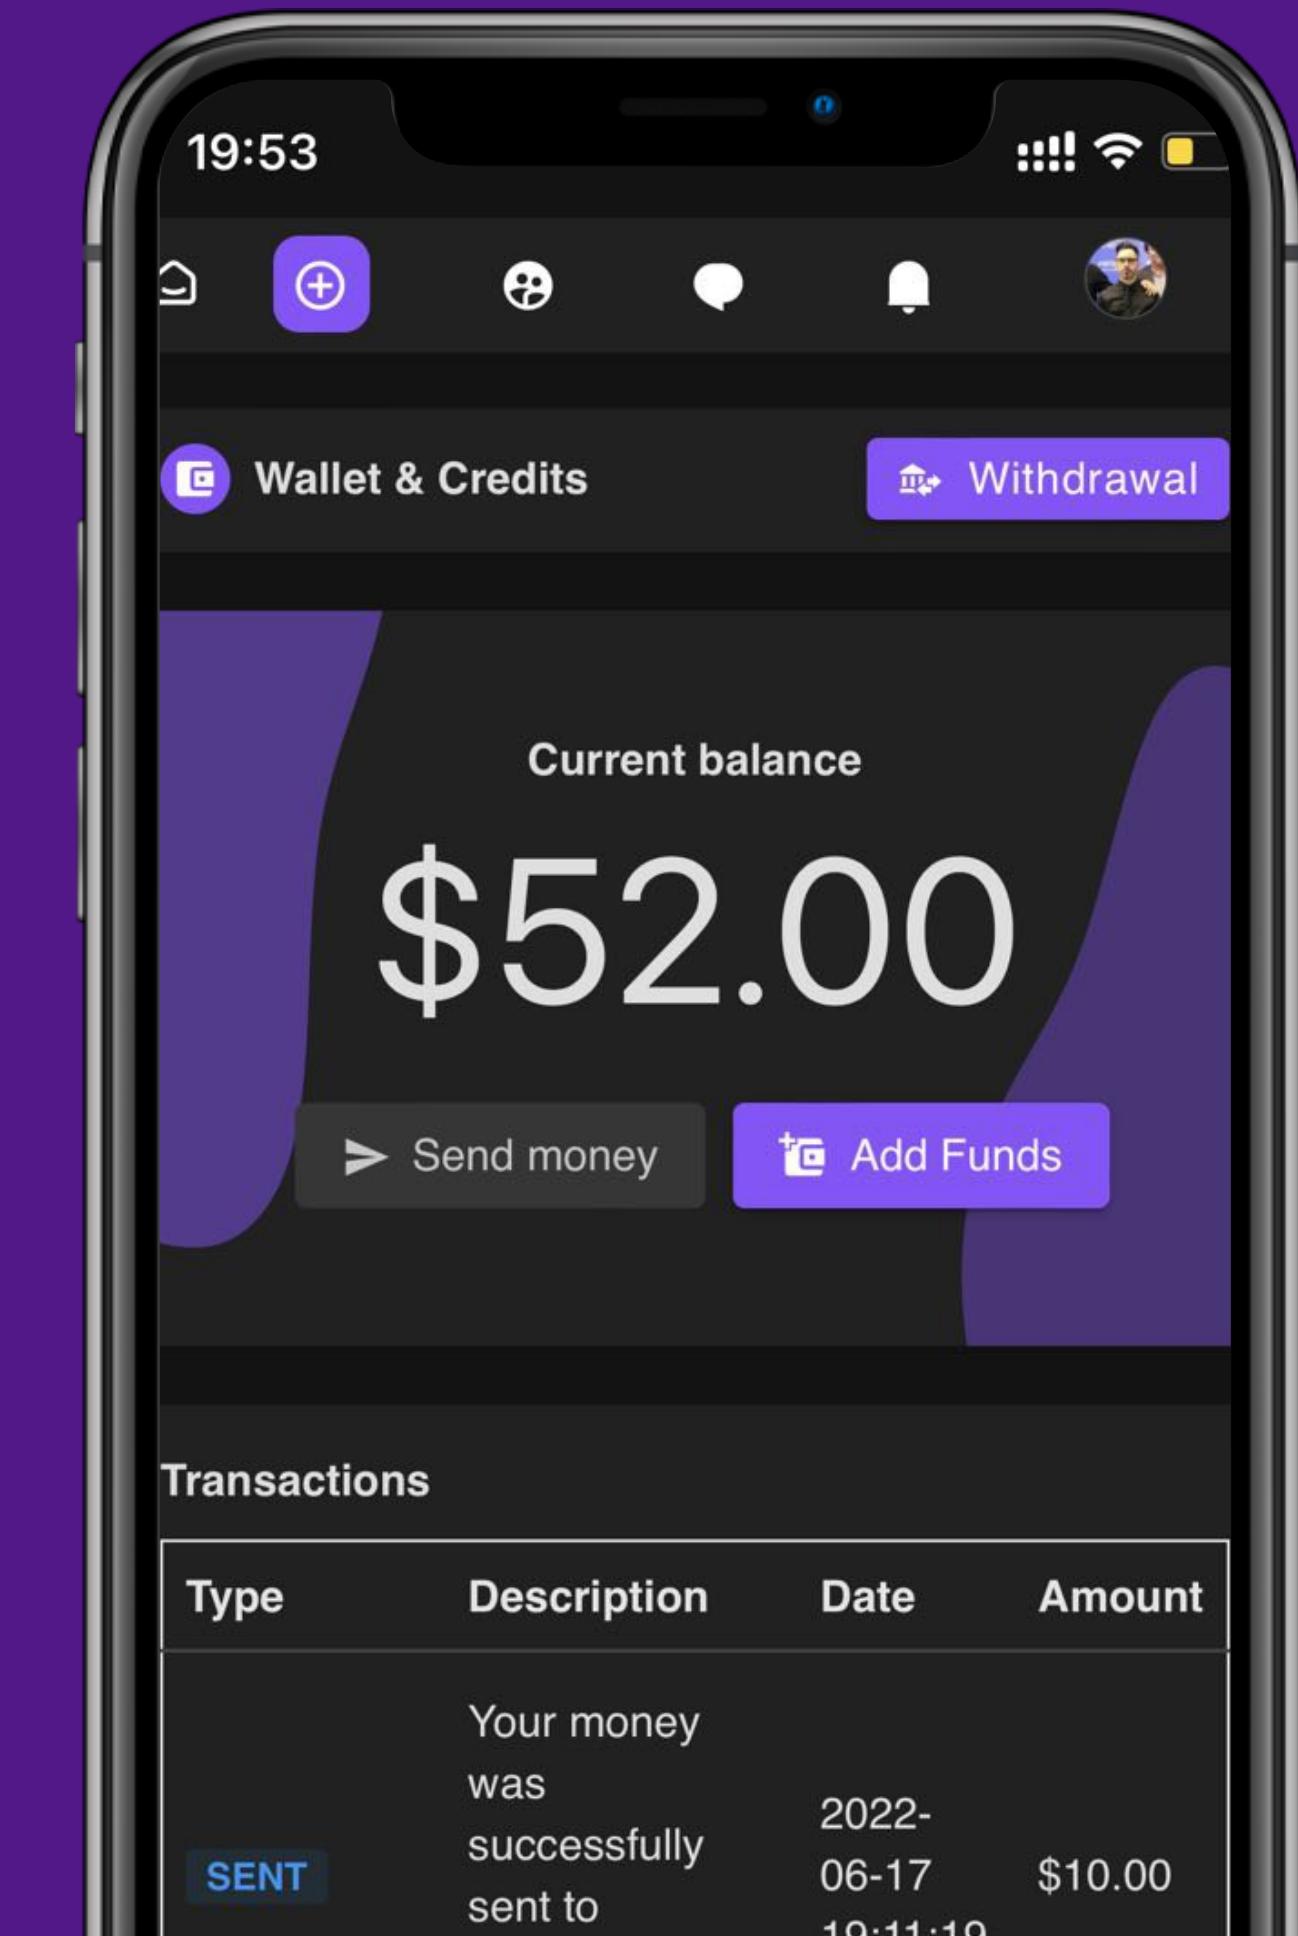

Decentralized finance: securities, tokenization and digitization services for small and medium-sized enterprises to obtain liquidity and strategic partners.

Metaverse: One step forward, we generated a test of our own virtual universe to interact in VR mode,

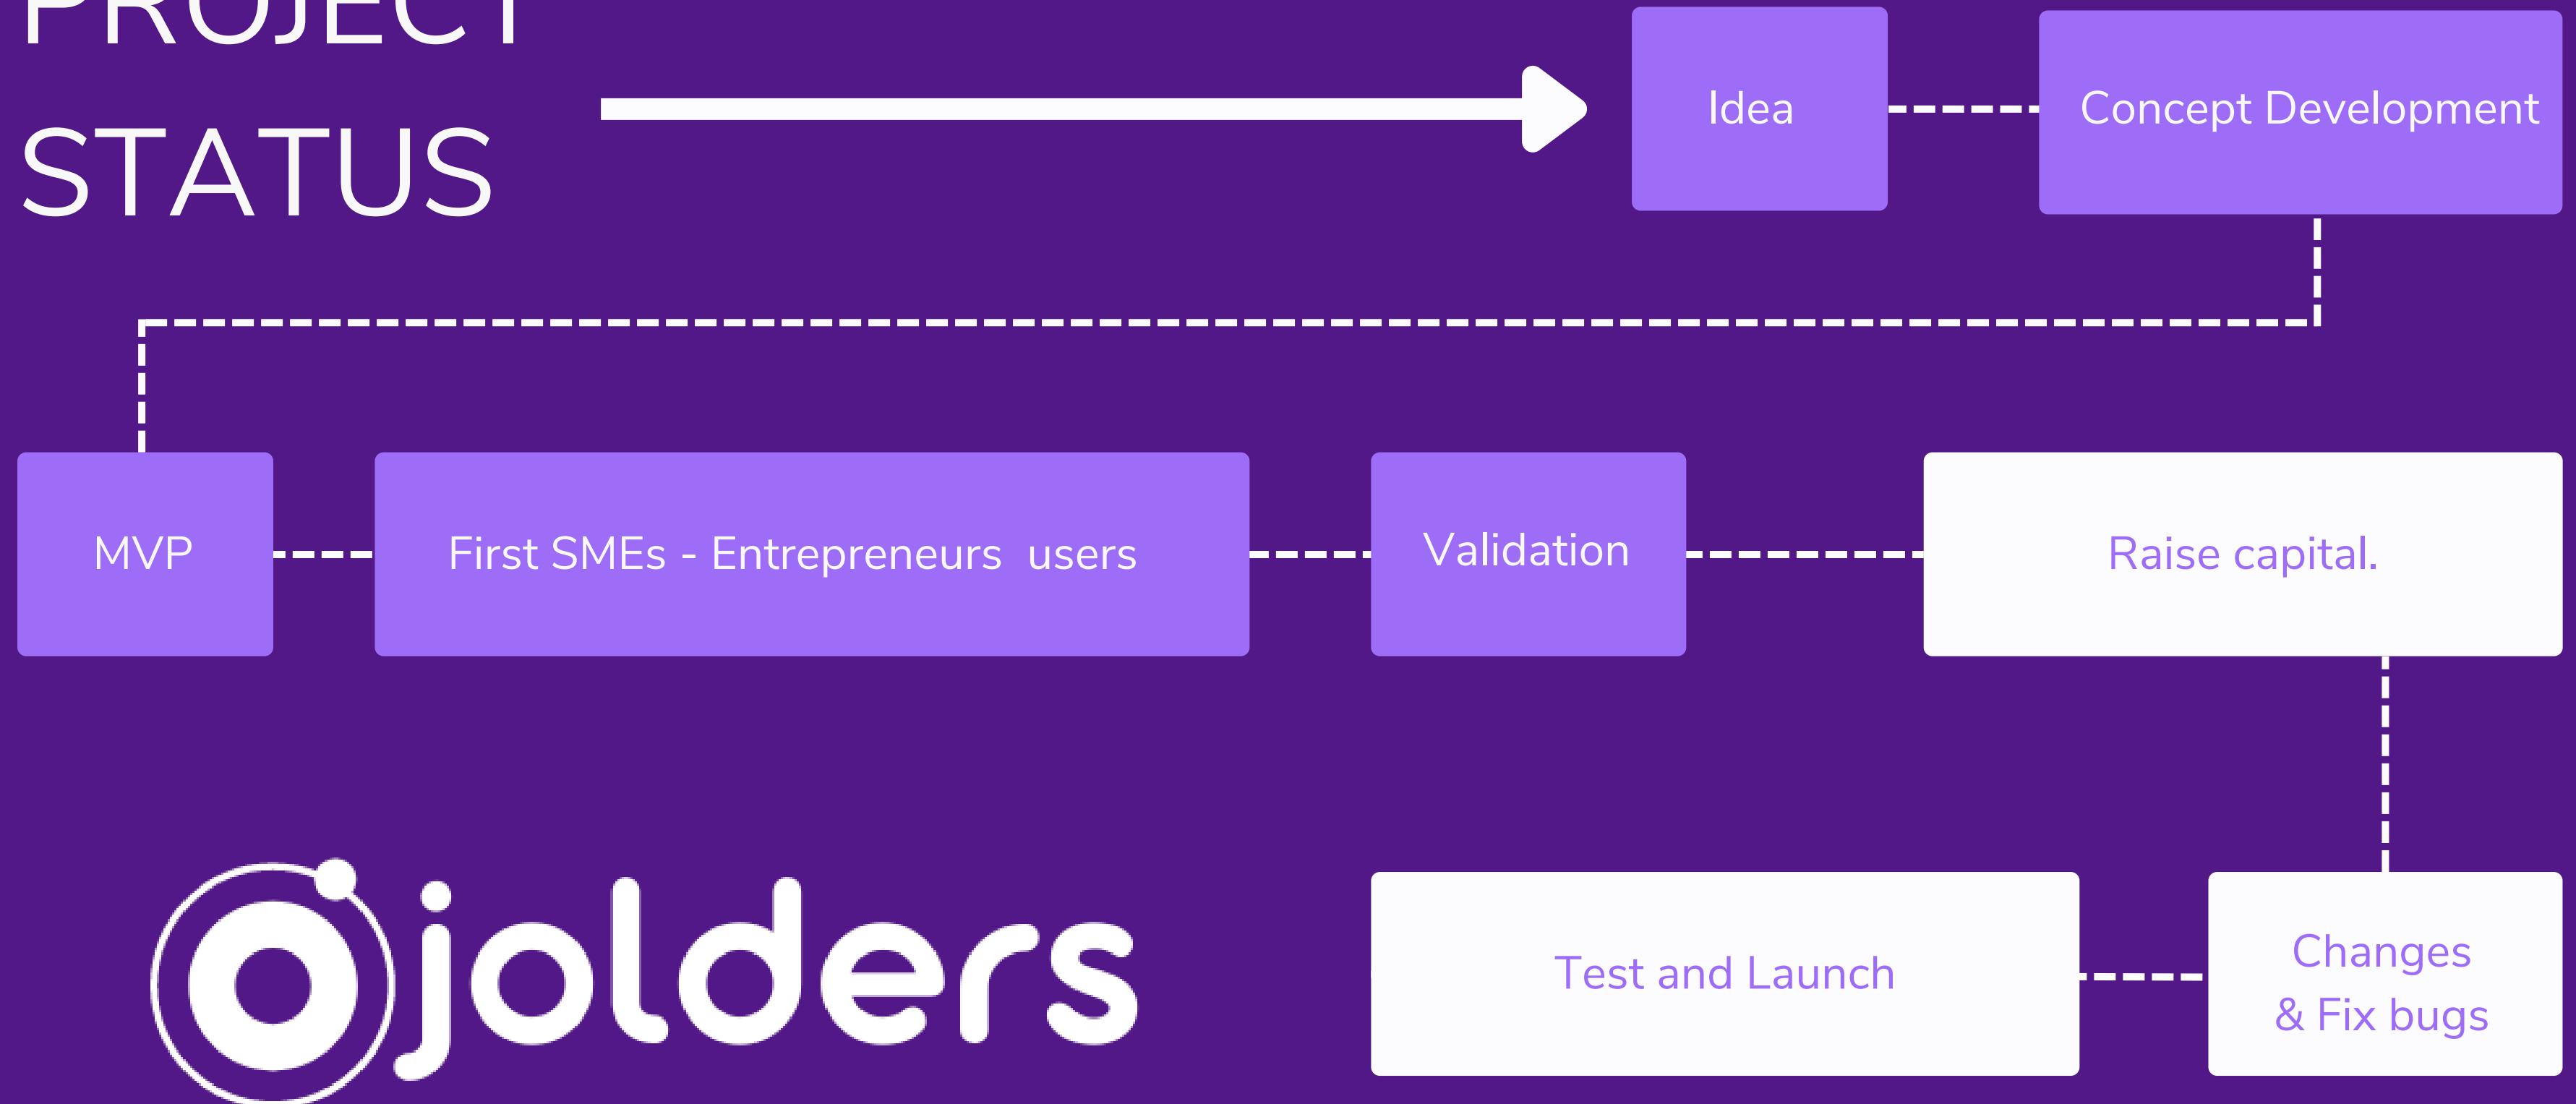

SCALABLE AND LIMITLESS.

We are constantly generating new features for users in today's world.

We move forward in deploying our development globally.

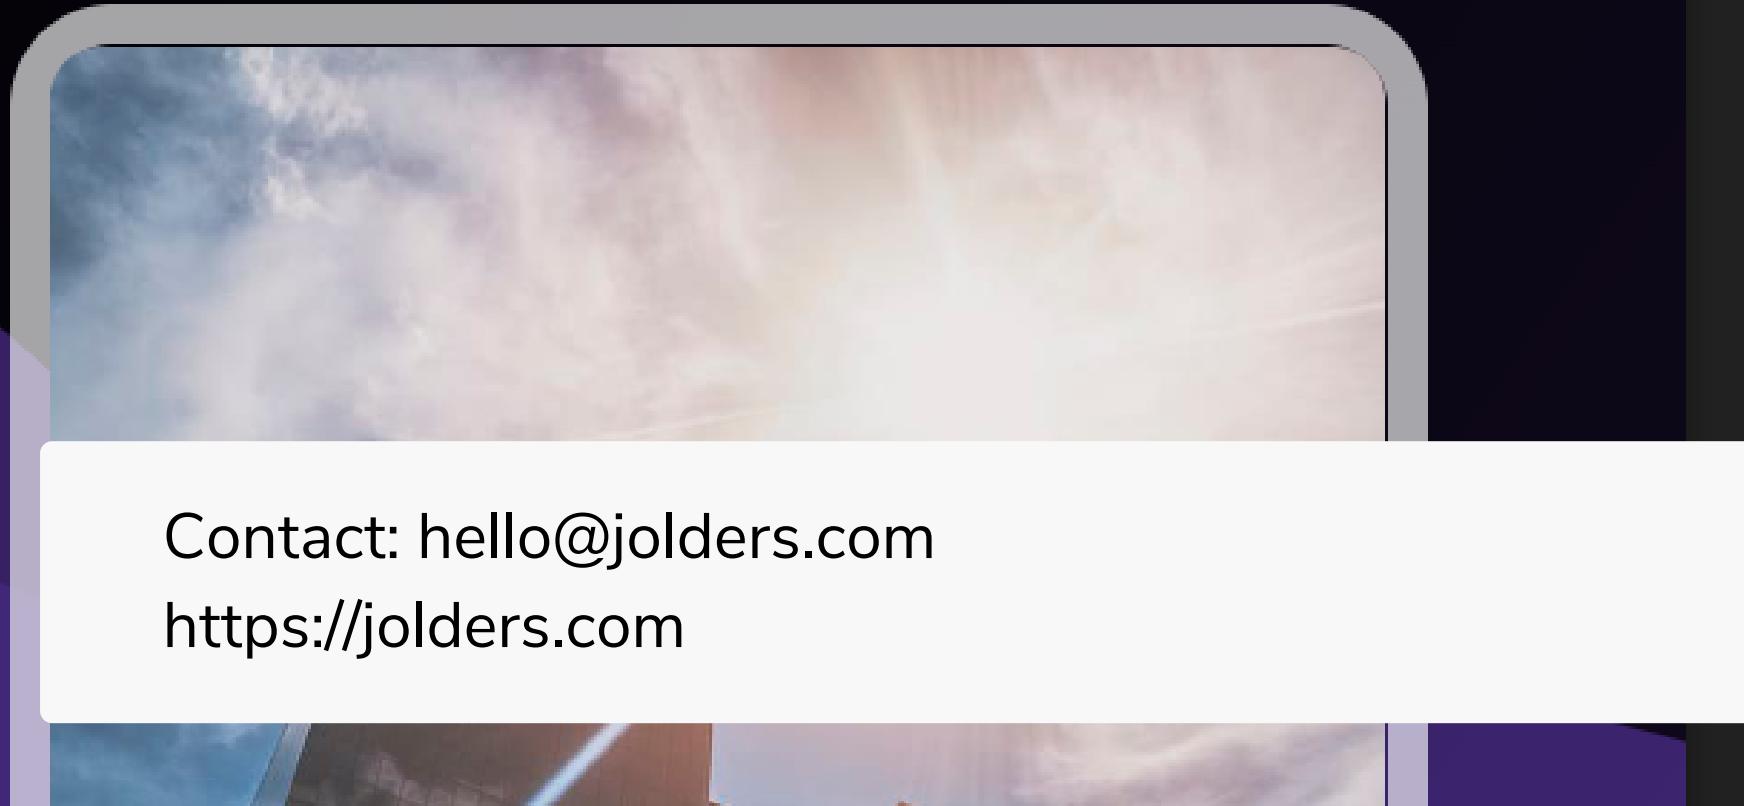

PROJECT STATUS

The next generation of social media

the first social network for small and medium business powered by blockchain technology
